Oates Lane Toorak 2010 – the records show Glenloch Inc borrowed \$2m in 2010 and added to savings paid the deposit and paid off the development of 20 Toorak units over 10 years while trading profitably each year until the development was paid.

The current Manager and Board of Glenloch Inc has shown they are incapable of developing Glenloch Inc properties. High Street has about 15 residents and 45 & 47 Sutherland less than 40 on what is now prime exclusive real estate. The CEO was offered \$3m by Katie Allen MP for developing and he spent \$ \$ on reports that were shelved. The CEO illegally acted as Board member. About 18 Board members resigned while the CEO was employed. The Board wound up the trust that existed since 1891 with a takeover group HousingFirst Ltd that gave the CEO a financial benefit.
